

Sarel Roller

**FOR
HEALTHY,
FREE-
DRAINING
TURF!**

The effortless solution for sealed turf

- ✓ *Thousands of small holes pricked quickly and effortlessly*
- ✓ *Break through sealed turf surfaces*
- ✓ *Brushes in moisture*
- ✓ *Reduces risk of fusarium*
- ✓ *Decreases need for wetting agents*
- ✓ *Ideal for use before overseeding to increase germination rate*

The Sarel Roller aids with irrigation by spiking the surface of greens with thousands of small holes.

The holes created allow dew and irrigation to be brushed in. And, when it rains, the open surface drains freely to prevent puddles.

This is crucial to prevent water pooling on the surface of greens, which could increase the risk of fusarium if left sealed.
